Education

VIT BHOPAL UNIVERSITY, Computer Science and Engineering with spec. in AIML Oct 2022 - 2026

- CGPA: 9.01/10

Projects

Multi-Agent Architecture for Problem Solving

- Built a Python-based AI multi-agent problem-solving system that breaks down complex user queries into steps like problem definition, decomposition, code generation, testing, and iterative refinement.
- Designed and orchestrated specialized agents (Problem Definer, Decomposer, Generator, Workers, Compiler, Tester, Error Identifier, Editor) to collaborate in a structured workflow and deliver accurate solutions.
- Stack: Python, LLM APIs

AI News Generator

- Built an AI-powered news/article generator that takes a topic, does live web research, and creates a blog post with proper structure & citations.
- Designed a multi-agent workflow (research agent + content writer agent) using CrewAI, with live search (Serper API) and Cohere LLM for content generation.
- Developed the frontend in Streamlit with features like user input, advanced settings, and one-click markdown download of generated articles.

SKILLS

Languages: Rust, Python

Domain: Deep Learning, System Programming (CLI tools)

Databases: MySQL, PostgreSQL

Frameworks: Discordpy, Py-Cord, TensorFlow, Keras

Additional: OS, CN, OOPS

Additional Experience And Awards

Second Prize, Andriod App Competition: Won 2nd prize for developing a Progressive Web App (PWA) for music in the Android Club competition.

Second Prize, Qriosity: Secured second place in the quiz-based competition conducted by the IEEE Club.

Certifications:

- Applied Machine Learning in Python, Coursera
- Python Essentials, Vityarthi
- The complete Web Development Bootcamp, Udemy

EXTRA-CURRICULAR

College Clubs:

- Ai Club Web Team
Helped develop and launch the club's official website (aivitb.com) using modern web technologies like Vite and React
- Web Team Co-Lead Data Science Club
Part of organizing team which hosted a flagship event featuring the CTO of GeeksforGeeks and a TED speaker, attracting 250+ participants.
- Tech Lead Meraki: The Fine Arts Club
